Dear Grace,

Thank you for your entry request.

We are limited by numbers with competitors by the "host country" (in this case Montenegro who are kindly allowing us to hold our championships there). To be fair to all, specially the small Nations we can only give 1 quota for your team, we prefer that you send the athlete with the best points in GS.

Thank you for your understanding

Carolina

Dear Carolina,

Thank you very much for your message which contents have been well noted.

Since the competition includes NC and NJC, therefore we decide to send two male athletes to compete one of each category i.e

HO, Ping-Jui FIS Code 130040 compete NC

TANG, Calcy Ning-Chien FIS Code 130053 compete NJC

Please confirm the above by return email would be appreciated.

Dear Grace,

Thank you for your suggestion. Due to the new Omicron variant, we are restricted by three different Covid protocols, FIS, Montenegro, and Timor-Leste. Therefore we are forced to limit athletes to one athlete per gender for both days to appease all parties and the race registration is filling up quickly. This is an unfortunate circumstance, we had to communicate this requirement to several ski federations.

The last two years have been challenging for all the world and for our ski association, which is totally run by volunteers. We have done everything we can to continue to help our athletes and other small Nations in the most professional safe environment possible. Montenegro has requested that we keep the entries to a minimum. Therefore, for us to be able to organize the event, we request that you choose one athlete per gender with the best points for all four races, TLS NC, NJC, and Jamaica NC, NJC.

Thank you for your understanding

Dear Carolina,

Thank you very much for your long email to help us understand your difficulties and tough situation.

As we can understand, TLS and Jamaica are two different host countries, it is individually. Therefore, if we have different male athlete

participate different competitions i.e. TLS and Jamaica one of each, should not be a problem, am I right?

Female athlete has no problem now.

Please confirm my understanding of the above, thank you very much in advance.

Then we will inform you as soon as possible who will participate in which day of the competition.

Best Regards

Dear Grace,

Thank you for your email.

Please be advised that all ski associations have now confirmed their quotas respecting COVID protocols.

The male race is now full and **we can not confirm any male entries for TPE.**

However we hereby confirm one female entry for TPE for ALL 4 races ( 2TLS &amp;2 Jamaica).

Please find enclosed the program and hotel information for LEE, Wen-Yi.

Kind regards

Carolina

Dear Carolina,

We feel so regretful to learn the outcome.

Since the registrations of the two male athletes have been reported to the Sport Administration, Ministry of Education, we need you to provide us an official notification stating that these two athletes (Name and FIS Code) have been removed from the registration list by your organizers, so that we could forward it to the Sports Administration, Ministry of Education as a proof.

Thank you very much for your understanding in advance and your official notification letter will be looked forward to.
